WiFi IR Weatherproof Bullet

4.0mm Fixed Lens

480 TVL Day/Night Color Camera

This wireless IP camera makes setting up a surveillance system as easy as possible. Using industry standard 802.11b/g, this camera will connect to any existing wireless router without the need for any expensive coax or cat5 Ethernet wires. Best of all this setup does not require Line of Sight. This reduces installation cost and increases profits. Comes with a free 64 Channel NVR software, which turns any basic computer into a recording device. View your camera from your mobile device (iPhone, iPad, and Android) from anywhere in the world.
